Phishing emails appearing to come from Blackboard

**Issue Overview**

Phishing scams use fraudulent emails to get users to reveal confidential information. Such emails usually look like they come from a legitimate organization such as Blackboard but contain links to illegitimate sites.

Blackboard has become aware of a mass phishing scam targeting customers using Blackboard Learn. To be clear, Blackboard Learn has not been hacked -- these are emails sent directly from a spammer to emails it may have harvested by spidering the institution’s websites for email addresses.

**Examples of Phishing Attempts**

It is important to realize that the messages will vary.

**EXAMPLE 1: "RECEIVED NEW MAIL"**

<table>
<thead>
<tr>
<th>Purported Sender</th>
<th>Blackboard ITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Email Subject</td>
<td>Received New Mail [School Board]</td>
</tr>
</tbody>
</table>
| Content          | ![Message Content](image)

**EXAMPLE 2: "NEW COURSE INFORMATION"**

<table>
<thead>
<tr>
<th>Purported Sender</th>
<th>Blackboard Learn <a href="mailto:notifications@blackboard.com">notifications@blackboard.com</a></th>
</tr>
</thead>
<tbody>
<tr>
<td>Email Subject</td>
<td>New Course Information</td>
</tr>
</tbody>
</table>
| Content          | Good Morning,  
|                  | An important course form has been posted to you through the Blackboard Learning System.  
|                  | Please sign in immediately to view the form.  
|                  | Click here to sign in <--Link to malicious website  
|                  | Thank you,  
|                  | Blackboard Learn. |
Solution

- Notify your end users that these emails are phishing emails and to delete and disregard the emails.
- Do NOT go to the link in the email. Delete the email immediately.
- Please continue to send questionable messages to spam@jhu.edu. For immediate response, please call the Help Desk (410-516-HELP).
